### Samvedana Foundation

The Samvedana Foundation was created to provide physical and emotional assistance to the poor and underprivileged persons of this earth. Through programs that help alleviate problems in health care, education and poverty, the Samvedana Foundation hopes to make the world a better place for all mankind.

Their mission is to ignite the philanthropic passions of human beings and provide a means for people to share their success with those less fortunate. The Samvedana Foundation's vision is to spread sensitivity throughout the world, and provide under privileged people the opportunity to overcome their disadvantages. It is the undying commitment of all their volunteers and donors. For more information on how you can help the Samvedana Foundation achieve its goals, please visit the [www.samvedanafoundation.org](http://www.samvedanafoundation.org).

Samvedana foundation is very grateful to all of you for their successful fundraising in September last year and is expecting to open the The Rajen Sarabhai Patel Model Burn Center in Ahmedabad later this year.

### Ichha Foundation

Mission of Ichha Foundation is to provide effective affordable comprehensive care for persons affected by HIV AIDS, educate and train healthcare professionals as well as the community to deal with HIV AIDS, support research using technologic, social and cultural tools to combat the HIV pandemic, provide a forum for International collaboration.

Ichha projects include: Voluntary counseling and testing in rural Andhra Pradesh India: Capacity building for HIV care in collaboration with Johns Hopkins, screening of pregnant women Prevention of mother to child transmission (MCT), HIV Epidemiology in Ranga Reddy District (HERRD) in collaboration with University of Chicago, control of tuberculosis in Ranga Reddy District (Andhra Pradesh India), "CRISP" Comprehensive Risk Reduction in India Strategic Partnership: Control of HIV in truck drivers in collaboration with Gati Limited ([www.gati.com](http://www.gati.com)), enhancement of laboratory capabilities for diagnosis and monitoring of HIV as well as other complications of HIV, training of healthcare professionals: CME in partnership with Rush University.
